

# **WORKSHOP CONCEPT NOTE**

**Improving the Coordination between University and Allied Health Colleges for  
academic quality and Service enhancement**

**Organized by:  
Purbanchal University,  
Faculty of Medicine, Gothgaun, Morang.**

**With the support of:  
Constituent and Affiliated College of Allied Health Program**

**Venue  
PU College of Health Sciences,  
IMS, Gothgaun, Morang**

## **BACKGROUND**

Improving the performance of the academic sector is seen as critical in achieving university goal as well as national health sector growth and poverty reduction in nation. The Graduate Programs in the Faculty of Medicine and Allied Health Sciences should offer dynamic educational experiences for individuals who strive to improve the health of individuals, communities, and beyond. The individual bachelor Degree in health sector could itself a dynamic tool to retrieve and address the overall health problems of nation and universe. Awarding a graduation to a single person will have a profound impact that touches many people in that individual's world. Health care is truly a life-altering profession; be it supporting a client who is struggling to regain independence after suffering many kind of injury or disease and able to play a vital role for rehabilitation. The health care job market continues to grow at a rapid pace. The demand for qualified and certified graduates will be unusually high in future. Several factors including aging populations, rise of obesity and a growing interest in personal health and wellness contribute to the increase in demand. The academic curriculum and teaching/learning approaches and their respective administrative facilities should address those issues for the better fulfillment of health sector.

In this scenario, Private/affiliated colleges might play a vital role as 95% of students of health science program belong under their umbrella so that Interaction between promoters and University authority feels it necessary for improvement of academic quality and university service to the colleges.

## **OBJECTIVE**

- Coordination between University authority and Affiliated Colleges/Campuses;
- Sharing of expertise in quality enhancement;
- Preparation of standards on regular inspections and visits;
- Improvement of Academic Calendar;
- Review into examination pattern and system;
- Discussion over new academic curriculums;
